## TO TRY WEINSEIMER SOON.

SURER OF HIM THAN OF PARKS, JEROME'S MEN SAY.

But They Are Still Looking Into the Pecple's Security Company and They still Hope to Learn More of the Motive of the Employers' Association.

The Grand Jury yesterday continued to examine employees of the People's Security company, at 277 Broadway, whose lawyers, Frank Adams Acer and J. C. Toole, are counsel for Philip Weinseimer, president of the Building Trades Alliance, who is under indictment on the charge of extorting \$2,700 from George J. Essig, a boss plumber at 29 Hancock place, for calling off a strike. Other employees of the same company will be examined next Tuesday.

If the plans of the District Attorney's office do not go astray Weinseimer will be tried about Sept. 21. Assistant District Attorney Rand, who prosecuted Sam Parks, will have charge of the case against Weinseimer. Mr. Rand is to spend the first two weeks of September in the Adirondacks, and when he returns it is expected that everything will be in shape to try the labor

The statement was made at the District Attorney's office yesterday that the evidence against Weinseimer right now is more conclusive than when the case against Parks was first instituted, and yet Parks was convicted.

The newspapers right now have more information about the case against Weinseimer," said a man in the District Attornev's office, "than this office knew about Parks when his case first came to this office. In addition, no one knows what the District Attorney has up his sleeve. It may he stated that the District Attorney feels that he has a very strong case against Weinseimer.

The security company employees who were before the Grand Jury yesterday included lawyers, clerks and stenographers. In all about thirty have been before the Grand Jury or examined by Mr. Rand or his assistants.

One of the witnesses yesterday was Frank A. Acer. Mr. Acer was a little perturbed because he had been informed that Mr. Rand had said that the affairs of the People's Security Company were under investigation. As a matter of fact Mr. Rand never made any such statement. At the request of Mr. Acer Mr. Rand made this announcement, taken at its face value: "Yo action against the People's Security

Company is contemplated in the District Attorney's office and so far as the District Attorney has any information the People's Security Company is organized for a perfectly legitimate purpose."

Mr. Acer, after his session before the Grand Jury, insisted that the wholesale examination of all the employees of the examination of all the employees of the security company was simply for the purpose of finding out whether or not any one of them saw Essig at the company's office on Wednesday, when Essig says he gave Weinseimer \$250 in marked bills. Mr. Acer seems to think that the District Attorney wants to get a second indictment

Attorney wants to get a second indictment against Weinseimer.
"Not a person in the office," said Acer, "saw Essig there that day. There is one person who thought he might have seen Essig, but he cannot identify him positively. Weinseimer was there for the purpose of conferring with Peter J. Daly, president of the Tile Layers' Association, in its suit against the Building Trades Employars' Association.

plovers' Association.
"There is no case against Weinseimer and it will never go to the jury. Essignever gave Weinseimer any money; of that

In spite of Mr. Acer's statement it was said at the District Attorney's office that there are nine witnesses who will swear that Essig was at the office of the People's Security Company on Wednesday, and these witnesses will be used if their evidence seems necessary to the prosecution of 'Diamond Phil." It was also stated very Diamond Phil. It was also stated very positively at the District Attorney's office that the witnesses examined by the Grand Jury were asked many pertinent questions about the affairs of the People's Security Company. Mr. Jerome was asked if the finding out the relations of the company with labor unions. He said:

"This inquiry is for the purpose of finding out both sides of the troubles in the building trades."

Mr. Jacopae is talking a laborate in the company with the company was not a suppose of the company with the company was not the company with the company wit Grand Jury inquiry was for the purpose of

building trades."
Mr. Jerome is talking very plainly these days about the methods of the employers and a "handful of grafters" in the labor unions. Whenever any one queetions his statements about the employers Mr. Jerome

does not hesitate to say what he thinks.
G. J. Johnson, Jr., of the Johnson-Kahn Company, builders of the Chatsworth, where Essig had the plumbing contract, was at the District Attorney's office, and he spent a lively few minutes with Mr. Jerome. Mr. Johnson met Mr. Jerome outside of the latter's office and he referred o Mr. Jerome's statement about the vicious business methods employed by the employers, whose motives were not always al-truistic. Mr. Johnson seemed anxious to find out what grounds Mr. Jerome had for such a statement. Mr. Jerome told him, without trying to conceal what he had to say from anybody near by: "You come down here and make a com-

int. How long ago is it since Essignt made this contract to pay Weinseimer? Eight months. And now you come down

"Why wasn't a complaint made here when the first payment was made? Don't you think it would have been a great deal better if this alleged blackmailer was expected in the start and not until all posed right at the start, and not until all he notes had matured?

"The employers are just as bad as the labor leaders. Wait until after Sept. 1, when the Prince law goes into effect, and if you employers don't look out I'll get some of you."

some of you."

Mr. Johnson made no reply. Mr. Jerome left him and a few minutes later he left for his home in Lakeville, Conn.

The Prince bill was drawn by Mr. Jerome and is on the same lines as the so called Canfield law. It makes it a crime for an employer to bribe a labor representative. Neither can an employer get behind the answer, "It might tend to incriminate or degrade me," if he is asked if he bribed a labor leader. The feeling in the District Attorney's office is that the law will have a great effect in deterring employers from bribing labor leaders.

great effect in deterring employers from bribing labor leaders.

Weinseimer and Mr. Acer had a long conference at the office of the People's Security Company yesterday, and it is supposed that they talked about the charges against Weinseimer. Mr. Acer would not be seen and business was going on just the same in the hig offices of the company. Mr. Acer and Mr. Toole say that ex-Surrogate Ransom. Elliot Danforth and ex-Justice Roger A. Pryor are members of the advisory board of the company. The company does business with labor unions and their members only.

## LOOMIS CASE REVIVED.

Man Confesses to Robbery, and Thinks American Was His Victim.

Special Cable Desputch to THE SUN.
LONDON, Aug. 19.-Franz Schneider surrendered to the Birmingham police to-day He accuses himself of stealing documents from a person at Southampton. The person referred to is believed to be the late F Kent Loomis, who disappeared from the steamship Kaiser Wilhelm II. on the morning of June 20, while on his way to Abyssinia, and whose body was afterward found on the

Devonshire coast. Schneider, who is an engineer, says that he met in Southampton, six or seven weeks ago, two foreigners whose names he gives. Another foreigner, who spoke with a Russian accent, offered him and the two others £5 each if they would rob a man among the passengers then arriving on a German liner of valuable papers. The Russian pointed out the passenger whom he wanted robbed and immediately

went away. Schneider save that he and his two companions seized the passenger and threw him on the ground. Schneider then took from him a large envelope full of papers. the envelope bearing the seal of the United States Government.

He describes the victim as 35 years of age, 5 feet 9 inches in height, with brown mustache, clean shaven chin, and wearing a soft felt hat.

There are obvious discrepancies in the story, as Loomis's body was found near Plymouth, and therefore he must have fallen overboard before the steamship reached Southampton.

### NO YIELDING BY SOCIALISTS. International Congress Adopts Resolution Against Compromise.

Special Cable Despatch to THE SUN. AMSTERDAM, Aug. 19.-To-day's session of the International Socialist and Trades Union Congress was occupied in a discussion of a resolution adopted by the German and French Socialist parties. which was introduced in the congress by

the French delegates.

The resolution, while approving of Socialist parliamentary groups running their own candidates for parliamentary offices, condemns any idea of changing the Socialist tactics of the past, based on the struggle between the classes, by any concession to the established order of things. It declares that the Socialist party must refuse all responsibility for political and economic conditions based on capitalistic production. It must accept no share of government in bourgeois society.

The congress was further called upon to condemn any attempt to conceal the ever growing antagonism between the classes for the purpose of facilitating a rap-prochement with any bourgeois parties. M. Jaures, one of the French delegates,

opposed the resolution in a speech which practically amounted to an attack on the Germans. The resolution was adopted by a vote of 25 to 5.

## SOUGHT HEINZE IN CEMETERY

PROCESS SERVERS ANNOY HIM AT MOTHER'S FUNERAL.

Attempt Made to Serve Papers in Montana Suit at Grave in Greenwood-Service Stopped Until Men Were Ordered

Away-Brother Voices Indignation. F. Augustus Heinze and his brother, Otto C. Heinze, were watching the body of their mother being lowered into a grave in Greenwood Cemetery, Brooklyn, Thursday afternoon, when a process server, guarded by a husky six-footer, pushed his way through the funeral party and attempted to serve the Montana copper man with legal papers.

F. Augustus Heinze arrived in the city Tuesday to attend his mother's funeral. She died in Mannheim, Germany, July 24, and her body reached New York on the steamer Kronprinz Wilhelm Tuesday Persons acting for the Boston and Montana Consolidated Copper and Silver Mining Company, the stock of which is owned by the Amalgamated Copper Company, which has been fighting Mr. Heinze for several years, learned Wednesday that he had come to New York and was registered at the Waldorf-Astoria. A subpæna was issued Thursday morning by the United States Circuit Court, requiring the appearance of F. Augustus Heinze before Clifford C. Roberts, a notary public, at 76 William street to give testimony in an action begun by the Boston and Montana against the Johnstown Mining Company.

The subpœna was issued on an affidavit by William M. Bennett of the law firm of McElheny & Bennett of 15 William street attorneys for the Boston and Montana company. The deponent declared that the action is "to recover \$5,200,000 as damages for the wrongful conversion of ores by the defendant Heinze."

It is possible that Mr. Heinze received a tip that the process server was looking for him. At any rate he was not to be found Thursday morning at the Waldorf or at his brother's Madison avenue home. His mother's funeral was held at Christ Episcopal Church, Brooklyn, at 11 o'clock Thursday morning. Mr. brother, Otto C. Heinze, and other members of the family left the church shortly after noon for Greenwood Cemetery.

The brothers were standing at the edge of the grave with bent heads listening to the sciemn words of the Episcopal service when a small, nervous little man wearing glasses, joined the gathering of mourners. He was followed by a burly fellow, the usual type of process server's guard. As the body was lowered the little man advanced hesitatingly toward the Heinzes. glancing at each one, apparently not sure f his man. He held in his hand a folded slip of paper. At first no one paid any attention to

him or to the big man close at his heels When the first few lumps of sod were thrown into the grave, the bespectacled individual stepped up to F. Augustus Heinze. "I beg your pardon, sir," said he, "but

are you Frederic Augustus Heinze?' The clergyman stopped short, and those about the grave looked up, startled. Mr. Heinze raised his eyes from the grave, looked the little man over and turned his back without replying. He beckoned to two friends of the family near him and asked them quietly to request the intruder to leave. They asked the little man and his big companion what their business was with Mr. Heinze. The little man replied, rather shamefacedly, that he was there to serve notice upon Mr. Heinze to appear in court.

You ought to be thoroughly ashamed of yourselves," said one of Mr. Heinze's friends. "If you've no sense of decency or reverence for the dead, let me say that you'll get yourselves in serious trouble if you don't leave instantly. Now go, and

go quick!" The process servers walked rapidly away and one of the funeral party followed m to speak to the water cemetery. At the gate the process servers vere warned that they would be arrested if they intruded a second time.

Otto C. Heinze, who is a broker at 88 Franklin street, had this to say last night about the tactics of the pair: "It was the most contemptible piece of

work I ever knew. Perhaps the fellows themselves ought not be blamed so much. They were merely acting under orders and they really seemed heartily ashamed of "As for myself, I was so shocked by the

whole thing that I could find no words to speak to the two men. Perhaps it's just s well that I did not. "As for the new action against Mr. Heinze,

it is entirely baseless. It is the old, old issue that the Montana courts have thrown out time after time." At the office of McElheny & Bennett it was said yesterday that nothing was known

servers upon the Heinze funeral party. Two men, coats buttoned up against the rain, appeared in front of the house of A. P. Heinze, another brother of F. "We've stationed two process servers in front of Arthur P. Heinze's house at 220 Madison avenue. They're waiting for somebody inside. They may have to stick there a day or so, so please don't disturb them." Captain Cottrell said he wouldn't.

When the Heinze house was called by phone, A. P. Heinze talked to a Sun re-"I didn't know that process servers were outside," he said. "They are not after me.

Yes, it is possible that they are trying to serve legal papers on my brother, F. Augustus. Anything is possible, you know." When the names of McElheny & Burnett were mentioned to Mr. Heinze as having

Aspirant, owned and sailed by H. Wilmer Hanan and Addison G. Hanan, two of the smartest amateur sailors in the country, won the Astor cup for sloops to-day. She beat the Sybarita, Yankee, Virginia, Rainbow, Neola and Weetamoe, six of the fastest boats in commission this year. The Aspirant is a boat only 40 feet long and Sybarita is 90 feet and Yankee, Rainbow and Virginia each 70 feet long, so, according to the rule of the club, the Sybarita had to allow time to all the others. The Sybarita allowed the Yankee, Virginia and Rainbow 13 minutes 24 seconds each, Neola 38 minutes 31 seconds, Weetamoe 38 minutes 41 seconds and Aspirant 1 hour 19 minutes 10 seconds.

Yankee, Virginia and Weetamoe held high on their course and were benefited when the shift came. At 2 o'clock the wind was from the west-southwest, and the Neola and Weetamoe were the first to take a pitch to the southward. The Yankee made a short hitch that gave her the weather position, and the Sybarita made a starboard tack and, crossing the bow of the Virginia, held second position. The Corona was well in toward Point Judith before she took the starboard tack. The Katrina was then a long way astern.

A few short tacks brought the leadert up to the mark. The Virginia succeeded in weathering the Sybarita. The Yankee was the first at the mark. She turned as 3:02:08. The small jib topsail was run down and a balloon jib topsail sent up in stops and smartly broken out. The Virginia had her balloon ready as she turned the mark. Her time was 3:07:17, and the balloon was broken out at once. The Sybarita turned at 3:08:08 and was slow getting the balloon set. The Rainbow turned at 3:14:46. The Aspirant was the last of the sloops, but the little boat was holding on well. She turned at 3:31:28. The course back to the finish was northeast by east, 1/2 east, 13½ miles, and the wind had hauled again to south by east. Booms were gybed to port. The Virginia and Sybarita had a short luffing match, and then the Virginia set a spinnaker to starboard. The Yankee was the next to get out a spinnaker, and the Rainbow followed. The Corona sailed on with balloon jib topeall and balloon maintopmast staysail, and was going fast. Her competitor, the Katrina, was hopelessly beaten. The Neola was the next to try a spinnaker, and

NEWPORT, Aug. 19 .- The little sloop

It was a light day, and all the conditions favored the little boat. The first leg began with a reach, but the wind soon shifted, and at the mark the Aspirant was well up with the leaders. The second leg of 18 miles miles was a reach at first, but the wind headed the boats off and made it a beat for half the leg. The Yankee did some fine sailing on this leg and taking the lead turned the first mark ahead of the Virginia. The Sybarita was fourth. The Aspirant

It was a fine run to the finish. The boats made good time. The Sybarita passed the Virginia at 4 o'clock, but she could not catch the Yankee, and Mr. Maxwell sent his boat over the line saluted by a big fleet of steamers at 4:49:20. ## PENNY ANTE GAMBLING RAID.

FIVE ARRESTED FOR SOCIAL GAME IN BROKER'S OFFICE.

Lester S. Riley, Friend and Clerks Were Amusing Themselves With Pocket Roulette Wheel—Locked Up on Felony Charge-"Joker" Telephoned Police.

Into the ear of Sergt. Saul in the Old Slip station at 4 o'clock yesterday afternoon the telephone operator at Police Headquarters poured this tale:

"There's a gambling house running full blast in Room 1914 on the nineteenth floor of 42 Broadway. There is a roulette wheel going now and if you hurry men around there you'll catch them at the game.' "Where did you get the tip?" asked Sergt.

Saul. "Some skate who wouldn't give his name telephoned us," replied the operator.

Capt. Farrell of the Old Slip station is or his vacation and Acting Captain Ward is in command. Ward wasn't in when the headquarters tip was received, but Detectives Callahan, McCormick and Dale were. They were ordered to hurry and catch the gamblers at work. On the way to 42 Broadway, they picked

up Acting Captain Ward. The four lost no time in getting to the building. They went up to the nineteenth floor in different elevators so that they would not attract undue notice.

They met in front of the suite of offices occupied by the brokerage firm of Lester S. Riley & Co. The entrance to these offices is Room 1914. The four policemen found the door ajar and they shoved it in. The sight that met their eyes would have delighted Capt. Whiskers Chapman if he was on the job.

Sitting around a table were five men On the table were a hundred or more pennie On the table were a hundred or more pennies and also a pocket roulette wheel, the kind that can be bought in most any store for a dollar. The wheel was being spun at the time the cops entered and there wasn't any doubt that the players had been caught with the goods.

"What, can I do for you, gentlemen?"
said the man who was manipulating the
wheel, who afterward proved to be Broker Riley.
"We're policemen," said Capt. Ward,

"and we have come to raid you for gambling."

Broker Riley thought the visit was a joke. So did his fellow players. When the cops gathered up the pennies and took the toy wheel and evidence and told the five men they were prisoners, they saw the police visitation was serious business.

"Why, this is silly to arrest us," said Riley. "We were only playing with pennies for our own amusement. Why, only a few minutes ago we sent out and bought ice cream from a pushcart pedler so we could get a lot of pennies."

"I realize this is not a very serious breach of the gambling law," said Capt. Ward, "but you were gambling, weren't you?"

"I suppose we were, if you look at our simple amusement that way," said one of the players.

the players.

"Well, then, I've got to arrest you," said
Ward. "I'm sorry, but I can't help it."

"Well, I'll be damned if that isn't the
limit." said one of the five prisoners. limit," said one of the five prisoners.

They put on their hats and coats and were marched around to the police station. The raid had become known in many of the brokers' offices in the big building and more than one pocket roulette wheel was hidden away. In the police station Riley and his four fellow players were locked up charged with violating Section 351 of the Penal Code, which makes gambling a felony. Riley said he was 30 years old and lived at 120 West 116th street. The other prisoners were: Joseph C. Harris, a broker, of 32 Sidney place, Brooklyn; Henry Stevens, a cierk, of 1 Plushing, L. I. Edward Schrader, a clerk, of 420 East Eightysighth street, and Edward Reilly, a clerk, of 311 West Minety-second street. The last three men are employees of Riley. Loud were the protests of the prisoners when they found out they were charged with a felony and would have to stay in a cell until a Magistrate liberated them. Their denunciation of the joker who caused their arrest promises violence if they ever lay hold of him. At present they don't even know whom to suspect. Both Riley and Harris are members of the Consolidated
